In order to carry out scientific analyses for the age dating and/or the verification of the material
compatibility of the object with a presumed historical period

Mr./Ms. informed about the existence at the Museo d'Arte e Scienza premises, of
the most recent antitheft devices (volumetric and perimetric antitheft devices, reinforced doors, safebox,
external gratings on windows, etc.) exonerates the Museum itself from every responsibility concerning the
burglary and/or fire and/or damaging of the objects deposited at its scientific laboratory for the necessary
time to carry out the above mentioned scientific analyses.

I moreover declare to have been informed by Dr. Matthaes about the costs of the different analyses of the
laboratory.
